Standard Features

- Kohler Co. provides one-source responsibility for the generating system and accessories.
- The generator set and its components are prototype-tested, factory-built, and production-tested.
- The generator set accepts rated load in one step.
- The 60 Hz generator set engine is certified by the Environmental Protection Agency (EPA) to conform to Tier 1 nonroad emissions regulations.
- A one-year limited warranty covers all systems and components. Two-, five-, and ten-year extended warranties are also available.
- Generator features:
 - Kohler's unique Fast-Response™ excitation system delivers the fastest voltage response in the industry.
 - The brushless, rotating-field generator has broadrange reconnectability.
 - Kohler's permanent magnet-excited generator (PMG) provides superior short-circuit capability.
- Other features:
 - Controllers are available for all applications. See controller features inside.
 - The low coolant level shutdown prevents overheating.
 - Integral vibration isolation eliminates the need for under-unit vibration spring isolators.

RATINGS: All three-phase units are rated at 0.8 power factor. All single-phase units are rated at 1.0 power factor. Standby Ratings: Standby ratings apply to installations served by a reliable utility source. The standby rating is applicable to varying loads for the duration of a power outage. There is no overload capability for this rating. Ratings are in accordance with ISO-3046/1, BS 5514, AS 2789, and DIN 6271. Prime Power Ratings: Prime power ratings apply to installations where utility power is unavailable for one hour in twelve. Ratings are in accordance with ISO-3046/1, BS 5514, AS 2789, and DIN 6271. For limited running time and base load ratings, consult the factory. Obtain the technical information bulletin (TIB-101) on ratings guidelines for the complete ratings definitions. The generator set manufacturer reserves the right to change the design or specifications without notice and without any obligation or liability whatsoever. GENERAL GUIDELINES FOR DERATION: ALTITUDE: No derate up to 3050 m (10000 ft.). TEMPERATURE: Derate 0.5% per 5.5° C (10°F) temperature above 40° C (104°F).

Alternator Specifications

Specifications	Generator	
Manufacturer	Kohler	
Туре	4-Pole, Rotating Field	
Exciter type	Brushless, Permanent- Magnet	
Leads: quantity, type	12, Reconnectable	
Voltage regulator	Solid State, Volts/Hz	
Insulation:	NEMA MG1	
Material	Class H	
Temperature rise	130°C, Standby	
Bearing: quantity, type	1, Sealed	
Coupling	Flexible Disc	
Amortisseur windings	Full	
Voltage regulation, no-load to full-load	±2%	
Unbalanced load capability	100% of Rated Standby Current	
One-step load acceptance	100% of Rating	
Peak motor starting kVA:	(35% dip for voltages below)	
480 V, 380 V 4UA9 (12 lead)	700 (60 Hz)	
480 V, 380 V 4UA13 (12 lead)	980 (60 Hz)	

- NEMA MG1, IEEE, and ANSI standards compliance for temperature rise and motor starting.
- Sustained short-circuit current of up to 300% of the rated current for up to 10 seconds.
- Sustained short-circuit current enabling downstream circuit breakers to trip without collapsing the generator field.
- Self-ventilated and dripproof construction.
- Vacuum-impregnated windings with fungus-resistant epoxy varnish for dependability and long life.
- Superior voltage waveform from a two-thirds pitch stator and skewed rotor.
- Solid-state, volts-per-hertz voltage regulator with ±2% no-load to full-load regulation.
- Fast-Response[™] brushless alternator with brushless exciter for excellent load response.

Controllers

Available Controllers

Decision-Maker™ 340 Controller

Audiovisual annunciation with NFPA 110 Level 1 capability. Programmable microprocessor logic and digital display features. 12- or 24-volt engine electrical system capability. Remote start, prime power, remote annunciation, and remote communication options.

Decision-Maker™ 3+, 16-Light Controller

Audiovisual annunciation with NFPA 110 Level 1 capability. Microprocessor logic, AC meters, and engine gauge features. 12- or 24-volt engine electrical system capability. Remote start, prime power, and remote annunciation options.

Decision-Maker™ 3+, 7-Light Controller

Audiovisual annunciation with NFPA 110 Level 2 capability. Microprocessor logic, AC meters, and engine gauge features. 12- or 24-volt engine electrical system capability.

Remote start, prime power, and remote annunciation options.

Decision-Maker™ 1 Controller

Single-light annunciation and basic controls with NFPA capability. Relay logic features included with three controller options: standard, standard with engine gauges, and expanded with AC meters and engine gauges.

12-volt engine electrical system capability only. Remote or automatic start options.

Manual Controller

Single-light annunciation and basic control functions. Relay logic with AC meters and engine gauge features. Prime power and mobile application design. 12-volt engine electrical system capability only.

Engine Gauge Box Controller for Paralleling Switchgear Generator set-to-switchgear interface for paralleling switchgear applications.

Engine gauges and emergency stop switch features. 12- or 24-volt engine electrical system capability.

Note: See the respective controller spec sheet for additional controller features and accessories.
